LISTED 187C
UL 325
UL 991

residential

SWING GATE OPERATOR

Class I Vehicular Gate Operator

800 CYCLES
in case of power failure*

Simple limit switch arrangement

Efficient direct-drive gear head motor

On-board lightning protection

Clam shell cover design

120/220 VAC single phase power source

UV stabilized high quality polyethylene cover

Soft-stop - Soft-start with Intelligent Obstruction Detection

Operational Specifications

Operation	24 VDC
Main Power Source	120 / 220 VAC Single Phase
Battery (optional)	7 AmpHr 12 VDC x 2
Max Gate length	14 Feet
Max Gate Weight	600 lbs.
Max Operating Speed	13-16 seconds per 90°
* Battery Backup Operation	800 Full Cycles (600 lbs. / 12' gate)
Max Opening	120°
Max Duty Cycle	100%
Operating Temperature	-4°F to +158°F

Viking Access introduces gate operation with no belts, chains or extra coupling mechanisms. The R-6™ swing gate operator is capable of handling gates up to 600 lbs. and 14' long. The direct drive mechanism in combination with the adaptable algorithms in the control board set a new standard in gate automation.
